

World Sticky Notes

Developed by SWeeb

Usage: Press "N" while in scene view to create a new note, directly in front of where you're facing. Close the window to apply the note. Click on the note's text and you'll be able to edit it's contents. Go to: Tools/Notes Manager to open the manager window (the one here below).

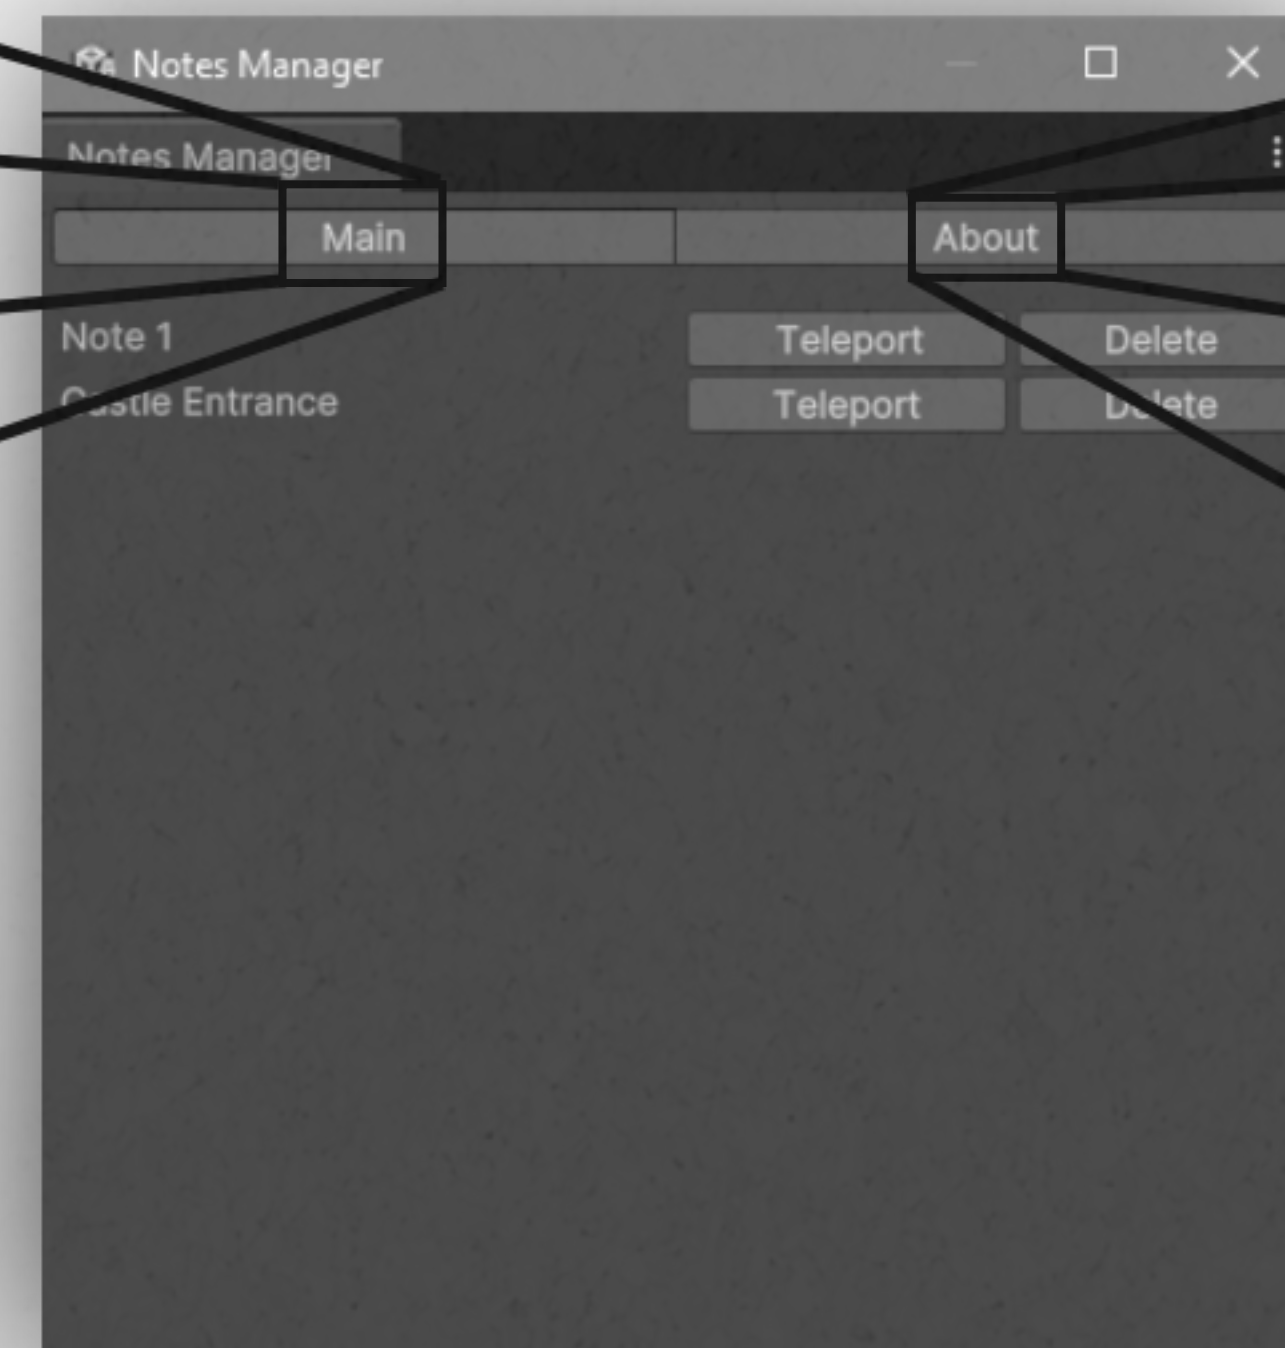

Basic Overview:

Main Tab

This tab is where you run the tool's main actions. You can teleport to a specific note position or delete it.

About Tab

This tab explains the purpose and scope of the tool. It also provides version information, author credits, and a quick link to the official documentation for further details.
